# THE MAIN COMMITTEE AFTER THE MEETING IN FINLAND

## 14<sup>th</sup> October 2016

After the meeting in Finland the main Committee makes the following agreements official:

- It set the dates for the next training and teaching activities that will take place in Holland and Spain. During the meeting in Holland there will be children from Spain, Hungary and Holland. It is due to Spain and Hungary will host a learning and teaching activity, otherwise the Spanish and Hungarians children wouldn't have the same number of opportunities to participate in these activities.
  - The learning and teaching activity in Holland will start the 30<sup>th</sup> January and it will finish the 3<sup>rd</sup> February.
  - The learning and teaching activity in Spain will start the 3<sup>rd</sup> April and it will finish the 7<sup>th</sup> April.

Regarding to these activities it is very important to send the host countries the number of students and teachers and the amount of boys and girls must be informed to the hosting countries as soon as possible.

- It establishes the sessions on Skype for this year. The sessions will be on Wednesday at 11 in Spain, Holland, Hungary and Denmark and at 12 in Finland and Cyprus. They will take place the last Wednesday of every month and the topics will be the following ones:
  - 26<sup>th</sup> October "It's me"
  - 30<sup>th</sup> November "Show me your classroom"
  - 14<sup>th</sup> December "Christmas Carols"
  - 25<sup>th</sup> January "How was your Christmas and New Year?"
  - 22 February "My day in school"
  - 29<sup>th</sup> March "Our Easter"
  - 26<sup>th</sup> April "Meeting in Spain"
  - 31<sup>st</sup> May "Summer holidays"

Every country will upload the children's comments about the skype sessions and they will use etwinning to discuss about the topic.

- Regarding the website, it considers that is good and it is working well to spread out our products. It is divided into different sections and all countries must follow the structure, so it will be easier for visitors to find all materials available.
- It considers that etwinning is working well and it's a good way to practice and discuss for the topics.
- It evaluated the intermediate report in every country, and the results were really positive. It took into account the dissemination of the project, the transnational meetings, the learning and teaching activities, and the budget.
- It evaluated the budget in every country. All countries have spent the right amount of money during the first year in order to manage the last year of the project, so talking about the finances everything is right too.
- It analyzed the different early school drop out rates and measures in every country and all countries will upload the documents to justify this analysis.

- The main Committee also made agreements about the next learning and teaching activity in Holland. the Dutch team talked about their ideas about it and every country gave new ideas for this meeting. The program will be available in the website soon.
- The Main Committee releases the list of duties for this year related to every main topic:
  - FAIRY TALES: It considers that the work is great, Hungary, Holland and Spain will start a new fairy tale and children will do different activities about that during next meetings. All countries will record the different pieces of it to create a new interactive book. During the meeting in Holland there will be a decision about the book chosen to create a new digital book. The printing of the final book will be in Hungary because it is the cheapest country, so during the meeting in Holland every country will tell the Hungarian coordinator the number of copies of it.
  - MANUAL OF TEACHING AND LEARNING LANGUAGES: Spain is the coordinator of this topic and they will create a book with the information uploaded by every country in the section for that. It will be available for everyone interested in it as a pdf file.
  - TECHNOLOGIES TO PRESERVE THE ENVIRONMENT: Every country has chosen a topic which deals with technologies used to preserve the environment. The presentations will be held in Spain except the Dutch topic. There will be several activities in Holland related to the Dutch topic. In Spain we will work on the rest of topics.
  - DICTIONARY: During the rest of meetings it will be implemented and it will be put into practice with several activities.
- The Main Committee analyzed the results about the questionnaires for teachers, parents and children during the first year of the project. All views are very positive and all comments related to the different places to stay were also great.

#### MOBILITY:

The place to stay was great with a good balance between quality and price. They picked us up to get the school every morning so it was really easy. Everything was really arranged well and we had plenty of time there to analyze their methodology for our manual. All people from the school community in Orivesi were really involved in the activities.

#### IMPACT:

The impact of the project was strong. There was a popular race the last day of the meeting and lots of people participated in it. It was a very successful week with a lot of people involved.

#### DISSEMINATION:

There are several articles in different newspapers about the meeting and the project and of course all materials developed are available on the website of the project. We have been using the diary of the project in twinspace to publish news, so it is working as it is detailed in the project.

#### BUDGET:

We ensured about the budget for the next 2 learning and teaching activities that will take place in Holland and Spain. We discussed about the expenses in both countries and all partners will have enough money to participate in them as it is detailed in the project.

#### TIME MANAGEMENT:

The activities are being developed as planned in the project, so it is working very well.

We designed lots of activities during the meeting with the main aim of putting into practice the 4 main products of our project in the next 2 learning and teaching activities that will take place in Holland and Spain.
