

Children in a Europe of 2020

2ND REPORT

MAIN

COMMITTEE

Erasmus+

THE MAIN COMMITTEE AFTER THE MEETING IN CYPRUS

11 TH MARCH 2016

- Manual with different ways of teaching languages: We will develop the manual after the meeting in Hungary including the information collected in Denmark, Cyprus and Hungary.
- SKYPE: Next dates and topics:
 - What do you expect in Hungary? 30th March. Only for children who are travelling to Hungary.
 - Talking to my partners from Hungary. 13th April.
 - The Olympics. (18th May).
 - Summer holidays (1st June).

We should collect videos and pictures to upload them to our twinspace and our website.

- WEBSITE:
 - We should include the promotion of the Project with the leaflet.
 - Assesment section. Uploading questionnaires.
 - Commissions: Hungarian and Dannish. Aplication form created by Finland.
 - Report: We will upload the final reports (main Committee) after every meeting. Sending it to the Commission's members.
 - Children's page: reports about the accuracy on twinspace.
 - Meetings: We will follow the same patron as Denmark.
- TWinspace:
 - Including in it the different materials created during the Project, the fairy tales, the materials for technologies to preserve the environment, and the dictionary.
 - Uploading the activity "It's me".
 - Chatting about the same topics used for Skype.
 - Uploading pictures and videos to show children's chats on Skype.
- TECHNOLOGIES TO PRESERVE THE ENVIRONMENT:
 - Every country has chosen one of the two topics to develop it during this year.
Cyprus: Metal recycling.
Finland: Environmental and climatological phenomenon
Hungary: Cleaning drinking water.
Denmark: Recycling
Spain: Recycling center.
 - Every country will collect information about the topic and it will be uploaded to our twinspace before the meeting in Hungary. It should be a power point presentation about the topic. Children will work in teams in Hungary to make, projects, murals, etc.
 - Afterwards we will create a final power presentation with pictures and videos with the children's work there.

FAIRY TALES:

- We will decide the calendar for next year in Finland. It will be nearly the same than this year because it's necessary to print it and Finland needs enough time to do it.
- In Hungary we will record the fairy tales we have already recorded. The fairy tales will be uploaded to our twinspace and to our website to disseminate our products and to have them available before the meeting in Hungary.
- In Hungary we will do more activities related to the fairy tales such as performances, murals, etc.

POETRY DAY:

- The 23rd March is the Poetry day. We will read at least three poems in our native language, then we will record it and we will upload them to our website. In Spain will do it the 8th April during the visit of a famous writer.

DICTIONARY WITH VOCABULARY AND EXPRESSIONS IN THE DIFFERENT LANGUAGES:

- We should create more chapters before the meeting in Hungary to put them into practice there.
- We will record the words and expressions in Hungary to create an interactive dictionary.
- In Hungary we will create easy communicative situations to encourage in all participants the use of the dictionary. We will record videos with the conversations to upload them to the website.

MEETING IN HUNGARY:

- We should decide the dates for next meetings. The meeting in Finland will be the 5th, 6th and 7th October 2016.
- The main coordinators will meet there to discuss about the new agenda for the Project.
- Fairy tales (recordings, performances, murals, etc).
- Technologies to preserve the environment (Projects, murals, etc)
- Hungarian methodology to teach languages. They will show the others something related to the Hungarian methodology to teach languages.
- Dictionary (recordings, conversations among all participants in the different languages involved in the Project).
- Check the availability of microphones, laptops, video cameras. Ask for help to other countries in case of lack of some of them.
- Skype session from Hungary. Children who are going to travel to Hungary will call to their partners to talk about their experience in Hungary. We will interview some of the children there to talk about their experience when using Skype.

DIARY OF THE PROJECT:

It's in a different section in the new twinspace. It's inside the twinspace, below the section for pictures and videos. Hungary was the responsible of this section. I will help Eva since she is very busy now with the meeting in Hungary. It's a lot of work to organize the meeting with children.

EUROPASS:

It's up to every country to send the Europass certificate to the host country. Spain will send it since our National Agency suggested us to do it because it's written in the Project. Some of partners have asked for advice and other agencies don't think it's necessary.

BUDGET:

The Spanish coordinator is attending a training course for the Budget in early April. We think he will have more information for us during the meeting in Hungary. Most of countries can't get into the mobility tool yet and everything related to the Budget is confusing now.

The Hungarian coordinator talked about the expenses for the learning and teaching activity that will take place in Hungary. It was very important for the budget, and all countries have spent the amount of money as it is detailed in the project. The Main Committee has ensured that all countries have enough money to finish the project and participate in all activities included in the project.

QUESTIONNAIRES:

We will send the results related to children, parents and teachers to Cyprus before the 2nd May. Cyprus will do graphs for every country and for the whole project.

MOBILITY:

The balance among quality and price of the hotel was very good and the Cypriot team arranged everything very well. The hotel was close to school so we could go on foot every morning. We enjoyed a lot with all activities and we could analyze their methodology for our manual perfectly.

IMPACT:

We analyzed the impact of the project during the meeting in Cyprus. All Commissions have been already constituted in every country. We had a high number of people who applied to participate as a member of them in each country.

DISSEMINATION:

We consider that the leaflet worked really well. All families and members of the school community know about the project now and one of the proofs is the number of applications to be members of the Commissions in every country. The logo of the project is also popular.

The website looks great and we have created a section to upload every product, transnational meetings, learning teaching activities, reports, etc. Our Danish colleagues have done a great work on it and we consider that is easy for anyone interested in our project to get the available materials from it.

TIME MANAGEMENT:

We are doing all activities and meetings on time, although the meeting in Hungary will be a month earlier than it was detailed in the project. It was impossible to set up a date in May so it will be in April.

It doesn't affect to the development of activities nor the objectives of the project, since we will have all materials ready to put them into practice in that learning and teaching activity with children.
